## HomeWorks® QS Keypads

- **flexible wall-mounted and tabletop designs** allow for customized button configurations that meet the individual needs of each homeowner
- **minimize wall clutter** by eliminating the need for several switches, while maximizing the number of possible functions
- **available in a variety of colors and metal finishes;** keypads can become design elements that blend in or provide a striking contrast

# Keypad aesthetic styles

## GRAFIK T™ RF C•L® Hybrid Keypad

The GRAFIK T RF C•L hybrid keypad provides local zone dimming and scene-based control.

- broad compatibility with many LED loads
- available in 2, 4, 5, and 6 button configurations
- backlit, engraved text
- Dynamic Backlight Management™ makes engraving easy to read in any light
- available in Architectural matte, Architectural metal*, and glass

## Palladiom™ Keypads

Control lights, shades, and temperature with the sleek, minimalist design of Palladiom.

- Dynamic Backlight Management makes buttons easy to read in any light
- unique mounting options for tile surfaces, millwork, or furniture
- surface or standard wallbox mount
- flush front panel for Wall-Smart® installations
- consistent button opening size makes multi-gang faceplates simple to order
- buttons are flush with faceplate and are made of the same material for a clean look
- adjustable (by button press) backlighting
- matching accessories
- available in Architectural matte, Architectural metal*, and glass

* Only available in select metal finishes (BB, SB, BC, SC, BN, SN)

Wall-Smart is a trademark of Wall-Smart Ltd., registered in the U.S.

# Keypad aesthetic styles

## Architectural seeTouch® Keypad

These seeTouch keypads coordinate with Nova T☆® wallplates.

- available in glass, Architectural matte, and metal finishes
- square corners, beveled edges
- coordinating accessories
- for use with wired and wireless systems

## Designer seeTouch Keypad

These seeTouch keypads coordinate with Claro® and Satin Colors® wallplates and accessories.

- available in glass, Designer gloss, and Satin Colors (matte) finishes
- rounded corners, squared edges
- all products use standard designer-style opening
- for use with wired and wireless systems

## International seeTouch Keypad

International seeTouch offers flexible button configurations and more room for scenes and settings.

- available in many colors and finishes, including custom metals, glass, and color-matching
- two columns of buttons provide functional and cognitive organization in a compact design
- square corners, beveled edges
- uses international backbox (available for order)
- available in U.S. and international markets
- for use with wired systems

## RF Tabletop seeTouch Keypad

The seeTouch tabletop keypad is the portable extension to a lighting control system, allowing the homeowner to keep it within reach for the ultimate convenience.

- perfect for bedside and countertop locations
- available in 5-button, 10-button, or 15-button configurations
- multiple columns of buttons provide functional and cognitive organization
- faceplates are available in Snow (SW), Midnight (MN), and metal finishes
- for use with wireless systems

# Keypad aesthetic styles

## Signature Series™ Keypad

Signature Series keypads offer a slim, elegant solution for wall-mounted keypads.

- available in many button configurations
- square corners, beveled edges
- large, backlit buttons add a unique and elegant look
- for use with wired systems

## Architrave™ Keypad

The Architrave style keypad fits where other keypads won't, including door jambs and other millwork.

- available in door narrow and door wide models
- square corners, beveled edges
- small LEDs beside each button indicate the status of the scene or lighting zone
- for use with wired systems

## Dynamic Keypad

Dynamic keypads provide the functionality of multiple Lutron keypads in an easy-to-navigate, intuitive arrangement.

- available in gloss Black and White finishes
- rounded corners, squared edges
- uses custom mounting frame (included)
- for use with wired and wireless systems

# GRAFIK T™

## GRAFIK T™

## 1 Order control

HQRT-GH _____ B (hybrid keypad)
model

- Engraving is done directly on faceplate.
- Engraved faceplates are purchased separately (single- and multi-gang).

Example:
HQRT-GH4B

## 2 Order engraved faceplate

LWT – _____ – _____ – E
gang color

- Multi-gang faceplates use “G” for each GRAFIK T device and “T” for each New Architectural accessory (i.e. LWT-GG-WH, LWT-GGT-WH).
- Utilize the Engraving Manager in the HomeWorks® QS software to specify and order engraving.

Example:
LWT-G-SN-E

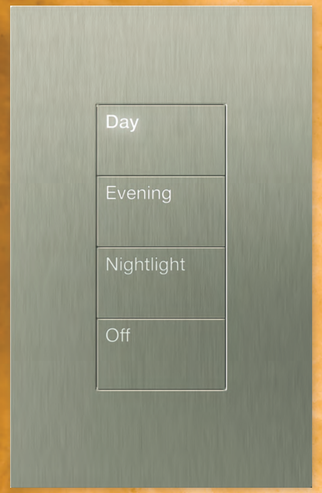
Satin Nickel
(SN)

*Special notes on finishes and faceplates:*

1. GRAFIK T keypads can only be ganged with other GRAFIK T devices or New Architectural accessories.
2. All engraved faceplates must be purchased separately, including single-gang.
3. Button configurations are not field changeable.

Color samples shown are representations only. See product samples for exact finishes.



Palladiom™

## 1 Order control

HQWT – U – P_____W - _____ (rectangular)
model color

HQWT – S – P_____W - _____ (square)
model color

- Single-gang faceplate included.
- Keypads ship with default engraving. Purchase includes engraving credit.

Example:
HQWT-U-P4W-SN

## 2 Redeem engraving credit for engraved button kit

PBT – _____ - _____ - E
model color

- Button material and color should match faceplate.
- Utilize the Engraving Manager in the HomeWorks® QS software to specify and order your engraving and redeem the engraving credit for an engraved button kit.

Example:
PBT-4-SN-E

## Alternate ordering method

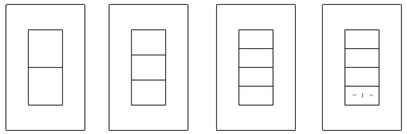
HQWT-B – _____W - _____ (-E) (base and buttons)
model color optional

LWT – _____– _____ - _____ (color faceplates)
style gangs color

- Multi-gang faceplates use “P” for each position (e.g. LWT-U-PP-WH).
- Styles are “U” for U.S. style and “S” for square style.
- Base units available with engraving credit or pre-engraved (-E).
- Button and faceplate materials should match.

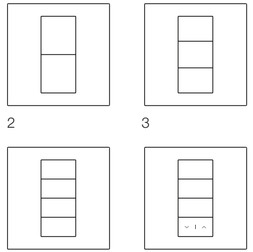
Example:
HQWT-B-P4W-SN
LWT-U-P-SN

*Rectangular*



2 3 4 R

*Square*



2 3 4 R

*2-Column square*

## 1 Order control

HQWA - W_____ __ - _____ (wired keypad)
model, insert (I) non-insert (N), color

HQRA - W_____ - _____ (RF keypad)
model, color

HQRA - H_____ - _____ (hybrid keypad)
model, color

Wired Example:
HQWA-W5BRLN-WH

RF Example:
HQRA-W5BRLI-WH

- Single-gang faceplate included. Multi-gang faceplates must be ordered separately.
- Keypads ship with an engraving credit as well as blank buttons for temporary use until an engraved button kit is installed.

## 2 Redeem engraving credit for engraved button kit

RKA - W_____ __ - _____ (wired keypad)
model, insert (I) non-insert (N), color

RKA - W_____ - _____ (RF keypad)
model, color

RKA - H_____ - _____ (hybrid keypad)
model, color

Example:
RKA-5BRLN-WH-E

- Select the final button configuration and color in the HomeWorks® QS programming screen.
- The button kit will determine the color of the buttons and whether those buttons are backlit or have backlit text. See examples at right.
- Utilize the Engraving Manager in the HomeWorks QS software to specify and order your engraving and redeem the engraving credit for an engraved button kit.

Backlit text

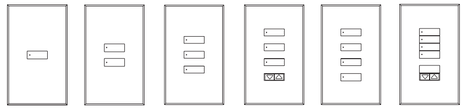
Backlit buttons

## Alternate ordering method (wired keypads only)

- If engraving is known when ordering the control, you can purchase it without buttons at a lower cost (see image and models at right).
- Order the button kit with engraving for each keypad.
  RKA - _____ - _____ - E
  model, color
- Order faceplate separately through Lutron customer service.

Example:
HQW-NB-NONE
HQW-NBIR-NONE

### *Non-insert*



1B, 2BS, 3BS, 3BSRL, 4BS, 4S

5B, 5BRL, 5BIR†, 6B, 6BRL, 7B

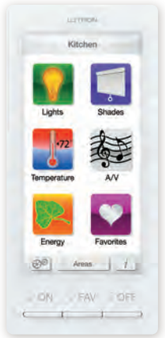
# Dynamic Keypad

## 1 Order control

HQ – J – DK420 - _____ (RF and wired)
color

HQ – W – DK420 - _____ (wired)
color

- Custom mounting plate shipped with unit.
- Available in White (WH) and Black (BL).
- Engraving is programmed into keypad.

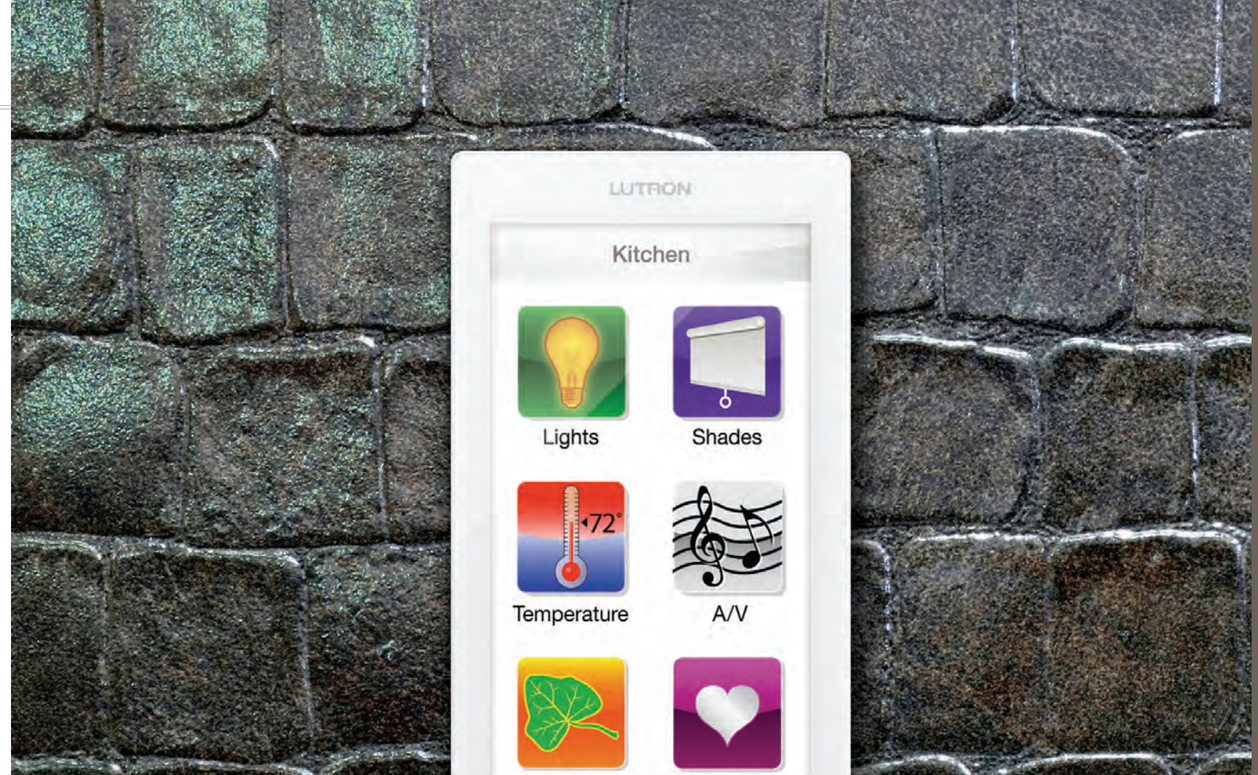


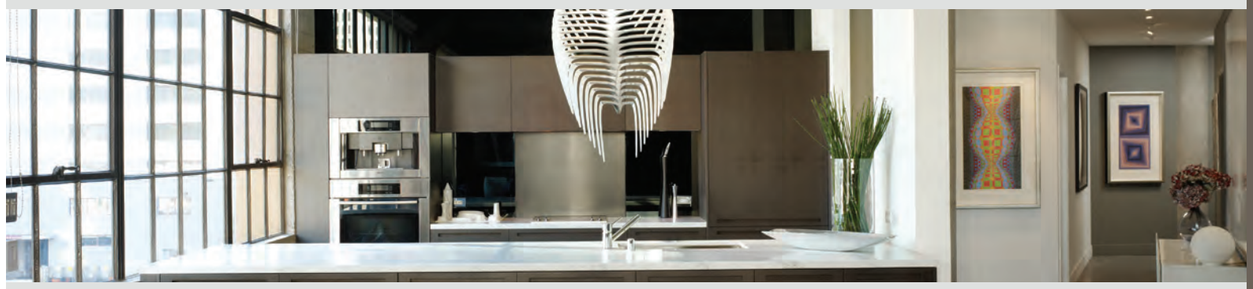
Example:
HQ-W-DK420-WH

## 2 Button types and programming options

- A single point of control for multiple systems including lights, shades/draperies, A/V and HVAC equipment.
- On-screen button labeling/text is configured through the HomeWorks® QS software during system programming.
- Features three programmable hard buttons for instant access to frequently used lighting functions.

Example:
HQ-W-DK420-BL





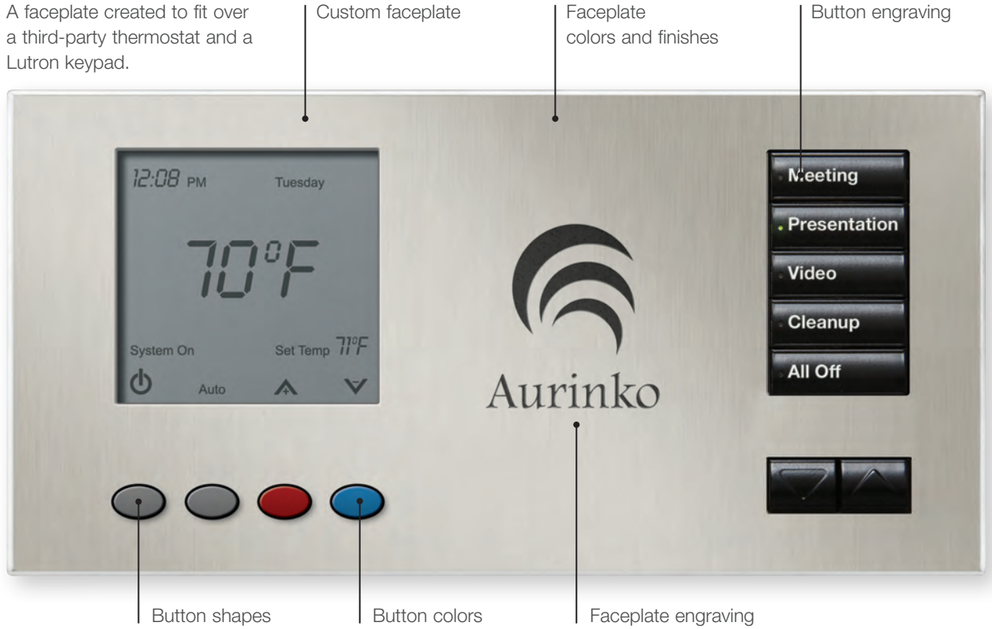
# Custom controls

## Controls that perfectly match your design

Lutron controls have always been well known for their beautiful aesthetic, intuitive nature, and variety of standard choices. We also understand that standard options do not always fit the bill. For projects that require specific design elements, or an exceptionally high degree of detail, we can help you create a unique control for each and every space:

- create exactly the right look for a space
- customize functionality to suit your client's needs
- enhance the interactive experience for occupants by providing unique, intuitive controls

### *What can be customized?*



## **Option 1:** Choose an existing custom design

Review options at **www.lutron.com/CustomControls**, then contact our customer service team for additional options. Consider customizing certain elements, such as color, finish, and engraving.

## **Option 2:** Create a new custom design

Send us a sketch or mark-up of an image of an existing Lutron control, then contact our customer service team to start a conversation. We will work with you on the design parameters and feasibility.

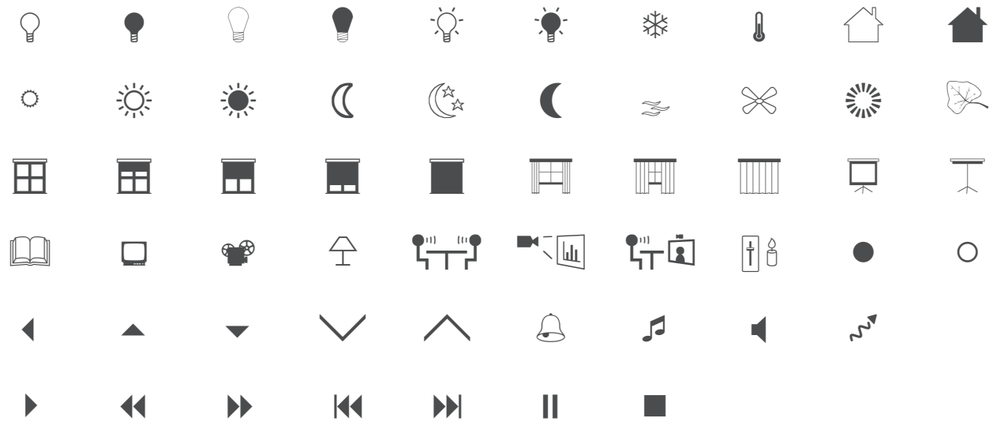
# Engraving options

# Add personalized engraving to any control

As a finishing touch, you can add custom engraving. Text, icons, and images are all possible.

## Icons and images

Our laser-engraving capabilities include the following icons in either dark gray or white text. These icons appear on engraving sheets as options for custom engraving*.



## Fonts and languages

The engraved font can be changed from the standard Helvetica to nearly any font, including characters from any language.

## Engraving guidelines

For images and icons, files must be provided in .dxf or high-res .pdf format. In some cases, images and icons may need to be resized to fit appropriately on a button or faceplate.

For custom fonts, you can provide true-type font files or request a font by name.

Engraving available in dark gray or white text

*Palladiom™ keypads support a limited set of engraving icons and languages. Review spec sheet at www.lutron.com for more details.

Opposite page: The base of this custom tabletop version of an international-style keypad was fabricated to match a customer-supplied wood sample.
